 **NARWHAL**[®]
INFLATABLE CRAFT 

Used in professional applications, military operations and rescue or diving activities, rigid inflatable boats like our GH series are designed for easy assembly, handling and transportation.

The wide diameter of the tubes provides maximum safety and stability to the boat. They can be rolled up in a bag for transport or stowage.

Reinforced at the points of maximum effort, they can also be built with an easy-to-remove aluminium or marine plywood floor, which is light, resistant, non-slip and easy to maintain. Robust crossbar made of the same material.

The finish of these boats makes them suitable for any activity that requires a fast, efficient and safe response.

Fast single inflation point, self-inflates in less than 1 minute (air or CO₂.)

A versatile boat that combines the flexibility of a fold-away with the durability of a RIB.

The GH Series of foldable RIBs are hard-wearing, easy to store, and suitable for multiple deployment methods, including: from the back of an aeroplane, from the beach, or from another vessel.

Narwhal has a complete range of professional boats that offer fully customised solutions to sectors such as the Navy, civil protection, security, rescue and/or environmental organisations, among others.

Narwhal bases the manufacture of its boats on three fundamental pillars: SAFETY, RESISTANCE and QUALITY.

MODEL	GH-470	GH-600	GH-700	GH-850
Length overall	475 cm	630 cm	690 cm	850 cm
Length inside	365 cm	455 cm	535 cm	685 cm
Beam overall	195 cm	250 cm	256 cm	250 cm
Beam inside	95 cm	120 cm	120 cm	120 cm
Maximum depth	85 cm	125 cm	125 cm	125 cm
Maximum tube diameter	48 cm	65 cm	65 cm	65 cm
No. independent compartments	5+1	5+1	5+1	5+1
Max. authorized motor power	50 hp	110 hp	130 hp	150 hp
Approx. weight of boat	101 Kg	194 Kg	202 Kg	259 Kg
Max. authorized paid load	1,097 Kg	2,354 Kg	2,629 Kg	3,650 Kg
Max. authorized no. of persons	10	19	22	30
Design category	C	C	C	C
