

OCTA-WIRELESS

Item Number 4686663

The OCTA-WIRELESS scale consists of two solid aluminium plates on which large refrigerant bottles can be safely placed thanks to the octagonal shape. The highly sensitive measuring cell indicates the exact weight even with asymmetrically positioned bottles. The wireless control box allows the input of a variety of helpful functions, which for example prevent overfilling of the refrigerant system or refrigerant bottle.

- Maximum weight up to 240 lb
- High accuracy of +/- 0.5%
- Field calibration possible
- Cable-free control box integrated in housing
- Programmable alarm for defined level
- Determination of filling level gravimetrically (in kg) or relatively (in %)
- All common weight units available
- With screw-in thread for 10612-REF for mounting 1kg refrigerant cans
- Power supply via 4 AAA batteries, 30 hours battery life
